COMMITTEE FOR FEE REVIEW NOTICE

Requests for units seeking inclusion in student fee funding process

Mandatory student fees are charged to most students each semester along with tuition and other fees. The mandatory fees collected this way were used to support the following organizations, services, and programs last budget cycle: IU Student Association, Union Board, Student Legal Services, Health Center, Auditorium Cultural Subsidy, Recreational Sports and the Student Recreational Sports Center, WIUX Radio, Student Life and Learning, IU Transportation, Child Care Services, the Graduate & Professional Student Organization, the IMU, IU Student Television and IU Outdoor Adventures.

A student Committee for Fee Review, co-chaired by the presidents of IUSA and GPSO, automatically considers fee requests from these groups. Additionally, the Committee wishes to receive and review requests from other groups seeking to be included in this funding process. If a new group request is approved by the Committee, the group will be asked to provide a comprehensive proposal for funds. The request for a funding proposal does not guarantee funding.

Requests for inclusion in mandatory fees process should be submitted to Carol McCord, Associate Dean of Students, IMU M088, not later than Wednesday, February 4th.

Submissions should be no longer than five typewriten pages, and must include the group's name, description and purpose, the specific populations benefitting from the group's programs or services, the group's current activities, budget and source of funding, and the amount of funding requested.

If you have questions about your submission or the review process, please contact Carol McCord at 812-855-8188 or by e-mail at camccord@indiana.edu
